PROFESSIONAL SUMMARY

Full-Stack Developer with 3.4+ years of hands-on experience building web, mobile, and backend apps using React.js, Next.js, React Native, TypeScript, and Node.js. Good at writing clean code, building features from scratch, connecting APIs, and improving app speed. I enjoy working closely with design, product, and testing teams to deliver stable and smooth products on time.

SKILLS

- **Frontend & Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, React.js, Next.js, React Native, Redux, Redux Toolkit, Tailwind CSS
- **Backend & Databases:** Node.js, Express.js, REST APIs, MongoDB, MySQL
- **Cloud & Tools:** Git, GitHub, Bitbucket, Jira, Postman, AWS (EC2, S3), GCP (Basic), Docker, Kubernetes

PROFESSIONAL EXPERIENCE

Full-Stack Developer

Venuemonk Technologies, Gurgaon, Haryana | Mar 2023 – Present

- Built end-to-end web applications, mobile applications, and backend services using React.js, Next.js, React Native, and Node.js, handling development from requirement discussions to testing and deployment.
- Refactored and modernized 400+ legacy JavaScript APIs using ES6+ standards and created new RESTful APIs to improve backend code quality and maintainability.
- Optimized existing React.js and React Native applications by improving state management, component structure, and application performance for a smoother user experience.
- Managed regular feature requests, bug fixes, and application enhancements through Jira while reviewing code and helping junior developers with technical issues.

Web Developer

Digi-Vertex Solutions Pvt. Ltd., Gurugram, Haryana | Jul 2022 – Sep 2022

- Created the company's official website using React.js, building 20+ responsive pages that work smoothly across mobile, tablet, and desktop devices.
- Improved website SEO through meta tags, semantic HTML, structured headings, and optimized page layouts to increase search engine visibility.
- Built reusable UI components for internal business applications and fixed 30+ bugs to improve application stability and functionality.

PROJECTS

Venuemonk Website | Next.js, JavaScript, Redux | Live Website

- Developed 20+ landing and lead-generation pages, including Get Quote and Makeup Artist pages, to improve user engagement and generate business inquiries.
- Worked closely with marketing and design teams to identify SEO issues and improve website structure, increasing the Lighthouse SEO score from 20 to 90+.

Venuemonk CRM & Business Apps | React Native, Redux, Node.js, TypeScript | Play Store

- Built and maintained two React Native mobile applications supporting sales operations and handling 4,500+ leads every month.
- Added features such as lead tracking, push notifications, and custom booking calendars, helping reduce manual sales efforts by approximately 50%.

Partner, Sales & Admin Portals | React.js, Redux, Node.js | Partner Portal

- Redesigned Partner Portal dashboards to help venue partners manage bookings, track activities, and monitor business performance, contributing to 40% business growth.
- Created reporting and lead-tracking dashboards for Sales and Admin teams, making daily operations and business monitoring easier.

Slide – Dating Application | React Native, Expo, Node.js, MySQL, TypeScript | Play Store

- Built a full-stack dating application from scratch, working on both the React Native frontend and Node.js backend.
- Added 8+ core features, including user profiles, swipe-based matching, chat functionality, and photo uploads, contributing to approximately 30% growth in daily user activity.

EDUCATION

B.Tech in Computer Science Engineering KIIT College of Engineering, Gurgaon | 2018 – 2022
